SILVERSTONE CIRCUIT

ABOUT THE CIRCUIT

Silverstone Circuit, located in Northamptonshire, UK, is a legendary racing circuit with a rich history dating back to 1947. The circuit is best known for hosting the British Grand Prix, one of the most iconic races on the Formula 1 calendar.

With a length of 5.891 kilometers and 18 corners, Silverstone offers a challenging layout for drivers.

Speed is one of Silverstone's defining features. The long straights, such as Hangar Straight, where drivers reach speeds of up to 330 km/h, create spectacular overtaking opportunities.

In addition to speed, there is also spectacle. The technical sections of the circuit, such as Copse Corner and Becketts, challenge drivers to showcase their driving skills. The elevation changes and narrow sectors add extra excitement and challenges.
